## CELEBRATE BLACK HISTORY MONTH

Enjoy diverse programs celebrating Black History Month. At UNC-TV, diversity extends beyond just one month; it runs through our programming all year long. This month, **Tavis Smiley** continues to bring cutting-edge guests and a fresh perspective on today's hot topics.

Featured in the PBS documentary series **Africans in America** and the subject of the two-volume work *The Harriet Jacobs Family Papers* (UNC Press) by Pace University Distinguished Professor Emerita of English Dr. Jean Fagan Yellin, this edition of **Black Issues Forum** examines Jacobs' life and legacy and includes a brief interview with Dr. Yellin. Host Mitchell Lewis also talks to a group from Greensboro's Bennett College for Women who studied Jacobs for a special seminar.

## ANALOG TELEVISION GOES AWAY THIS MONTH! ARE YOU READY?

You've been hearing about the end of the analog television signal and the transition to digital-only television for a long time. It happens this month!

Tuesday, February 17, is the last day television programs will be broadcast with the old analog signal. Any television that receives service from cable or satellite will continue to work normally after that date. But any television that gets a signal from an antenna, including rabbit ears, will no longer work unless it is either a digital television set or an analog television equipped with a DTV converter box.

**Digital TV Tip!** *If you're already receiving a signal over the air with digital TV or converter boxes, you will need to run channel scans after the conversion is complete!*

Get more handy help from UNC-TV's exclusive interactive blog. *Kip's DTV Tips* provides details about digital television conversion, what it means for you, related technology topics as well as a discussion forum from UNC-TV's Director of New Technologies Kip Campbell and other DTV experts. Bookmark <http://unc-tv-dtv.blogspot.com> and check in often for the latest DTV information!

## IS EVERY TELEVISION IN YOUR HOUSE READY?

If you're not sure, tune in to UNC-TV Wednesday, February 11, at 8 PM, for the seventh installment of **Digital TV: Are You Getting It?** A panel of experts will be on hand to answer your questions about converter boxes, antennas and everything else related to the end of analog television and the dawn of digital TV. There's also a wealth of information available at [www.unc.tv.org](http://www.unc.tv.org) where you can simply click on the TV set image on the right side of your screen.

## A CENTURY OF SHEA!

### Happy 100th Birthday Gospel Great & Tar Heel Treasure George Beverly Shea

*I've been listening to Bev Shea sing for more than 50 years, and I would still rather hear him sing than anyone else I know.*  
—Billy Graham

Although born in Winchester, Ontario, Canada, George Beverly Shea's 66-year association with Reverend Billy Graham and his ministry first brought Shea to our state in 1947. Sunday, February 1, Shea turns 100 and the centenarian remains active, still appearing in concert to inspire and enthrall with his bass-baritone sounds of praise.

The Grammy Award-winner's long career includes more than 70 albums of religious music and numerous books including the recent *How Sweet the Sound* (2004) and *Stories Behind 50 Southern Gospel Favorites, Vol. 2* (2005).

In celebration of Shea's 100th birthday, tune into UNC-TV Sunday, February 1, at 6:30 PM, for a special encore presentation of **North Carolina People** in which Shea shares his great story with host William Friday.

## LEGISLATIVE WEEK IN REVIEW IS BACK IN SESSION

Co-hosts Eszter Vajda and Kelly McCullen go inside legislative committee rooms and into General Assembly hallways to get the latest information on matters that matter to you.

**Legislative Week in Review** airs Fridays at 10 PM, with encore presentations Sunday afternoons, at 1.

Bland Simpson on the New River

## THIS MONTH ON UNC-TV'S EMMY® AWARD-WINNING **Our State...** Bland on the New River, Operation Bumblebee & Carolina Chocolate Drops!

Take in Carolina from the comforts of home with an all-new episode of UNC-TV's **Our State**, premiering Thursday, February 5, at 8 PM.

Take a new waterway adventure with Bland Simpson along the New River. Trace its early settlement and explore the surrounding countryside containing some of the most diverse flora in the Southern Appalachians. See what makes this pristine waterway the centerpiece of the New River State Park.

In 1946, the U.S. Navy launched "Operation Bumblebee," a top-secret missile development program on Topsail Island. Today, several *Topsail Towers*, observation columns from which engineers measured ramjet rocket thrust, still stand among the dunes.

Playing the banjo, fiddle and other stringed instruments, Rhiannon Giddens, Justin Robinson and Dom Flemons revived a variant of "old time" music nearly lost several decades ago. Meet *The Carolina Chocolate Drops* and hear why the group's music is such a hit.

Watch **Our State** every Thursday night, at 8, for unique and in-depth looks at all the personalities and places that make our state great.
